

ANCHORS OF THE ALASKA IMPACT ALLIANCE

 We want families to stay safely together. We aim to ensure that families receive the supports they need before they are in crisis.

**WE ARE
COMMUNITY-
DRIVEN**

**WE DO
PREVENTION**

We believe that prevention is not a state agency problem to solve; it is a community mindset to embrace. We believe that by strengthening families through community supports, we will reduce the need for child protective interventions.

 If we don't do what is expected of us or what was promised, a gap is created. It is unfair to leave the gap for others to fill. We take responsibility. The tendency is to fill the gap with suspicion or contempt, but we choose to fill it with trust and honor.

**WE
SHOW UP**

**WE FILL
THE GAP**

The value members bring to this Alliance is not our hours, but our lived experience, education, and passion for change. We cannot collaborate with those we are not with. We show up to meetings and events prepared to work together.

 We listen to communities and families about their dreams for their children's wellbeing. Then we act to build supports that align with those collective goals. We value a bias for action over discussion and a proclivity for urgency over complacency.

**WE
SAY YES**

**WE LISTEN
AND ACT**

Nothing is off-limits. We will try new things. We will re-imagine old strategies. We will not bring challenges without bringing solutions.

 Experience is what will keep us in a rut. Evaluated experience is what brings breakthrough. To grow, we must learn to assess everything we do, if we don't, we will become irrelevant.

**WE FACE
THE FACTS**

**WE EVALUATE
AND ADAPT**

We begin, maintain, adapt, and end programming based on data.

We build prevention programs that include sustainable workforces, operations, and funding.

**WE BUILD
TO LAST**
