Early childhood  
education

Community  
schools

Youth mentorship  
programs

Job training

Partnered with:

**OUR SURVEY ASKED RESIDENTS IF THEY HAD ACCESS TO 10 VITAL SERVICES.**

Metlakatla Indian Community conducted a survey of residents over age 18 from January 19-31, 2024 utilizing the 100% Community model by Katherine Ortega Courtney, PhD and Dominic Capella. The 100% Community model rates the accessibility to ten vital services. The accessibility rating in each category is an average of only those respondents who reported trying to access these resources in their community. Respondents were asked if they have utilized or attempted to utilize each of the 10 vital services in their community. If they said they had utilized or attempted to utilize the service, they were asked to rate how hard it is to access the services on a scale of 1-10, 1 being easy and 10 being hard. They were also asked to describe any barriers they experienced in accessing services.

Very accessible means that respondents find it easy to access comprehensive and affordable services in their community. Inaccessible means that respondents find it difficult to access comprehensive and affordable services in their community.

**5 Services For SURVIVING**

**Medical and Dental Care**

Respondents were asked to rate how accessible Medical and Dental Care is in their community. Medical and Dental Care increase health and longevity.

**Mental Healthcare**

Respondents were asked to rate how accessible Mental Healthcare is in their community. Mental Healthcare services have counselors to speak with about emotional challenges and childhood experiences and trauma.

**Housing Security Programs**

Respondents were asked to rate how accessible Housing Security Programs are in their community. Housing Security Programs provide safe spaces and prevent homelessness.

**Food Security Programs**

Respondents were asked to rate how accessible Food Security Programs are in their community. Food pantries and food security programs reduce hunger.

**Public Transportation**

Respondents were asked to rate how accessible Public Transportation Assistance is in their community. Public Transportation assistance ensures residents get to vital social services, work, and school when necessary.

**5 Services For THRIVING**

**Parent Supports**

Respondents were asked to rate how accessible Parent Supports are in their community. Parent Supports include caregiver support and programs that strengthen families and reduce the chance of injury, trauma, and maltreatment.

**Early Childhood Education**

Respondents were asked to rate how accessible Early Childhood Education is in their community. Early Childhood Education strengthens early learning.

**Community Schools**

Respondents were asked to rate how accessible Community Schools are in their community. Community Schools offer support with academics, tutoring, family support, and health, and social services.

**Youth Mentorship Programs**

Respondents were asked to rate how accessible Youth Mentorship Programs are in their community. Youth mentors and Youth Mentorship Programs provide strong role models and support for children.

**Job Training**

Respondents were asked to rate how accessible Job Training is in their community. Job Training provides access to jobs that offer a livable wage.
